

CUSTOMISED SOLUTIONS WORLDWIDE

BENTELER 
Distribution

AUTOMOTIVE

INTRODUCTION

Benteler Distribution Limited are market leaders in supplying the UK with Precision automotive solutions for its tubular needs, both in Carbon and Stainless. Servicing all its sectors with the very latest in tube processing. This expertise is supported from our Parent group, Benteler AG, who through a 'Global Presence' philosophy are world leaders in tube production and distribution for automotive and other applications.

PRODUCTS

Stainless steel tubes in Welded and Seamless
Typical applications: Heat Exchanger, Filler pipes, Inlet pipes, Exhaust systems and ornamental components

Carbon steel tubes in Welded CEW/DOM and Seamless, including Benteler branded materials
Typical applications : Fluid carriers and returns, Fuel filler systems, Seating components, Air Con systems, Airbag tubes and structural supports.

STOCKHOLDING AND PROCESSING

Our general stocks are the most comprehensive in the UK, we ensure dedicated stocks for client specific contracts, held in the UK and Europe.

Benteler Distribution Limited offer a cut to length service with fully automated, on-line de-burring, measuring and washing. We can offer JIT and Kanban solutions to the industry with our dedicated transportation and logistical departments, priding ourselves on our commitment to clients quality and delivery needs.

QUALITY

Quality Control is a must in modern engineering, registered in accordance with ISO9002 we ensure, with our strict procedures, including SPC, that the tubes supplied to customers are in accordance to specifications ordered. We are capable of full PPAP submissions with supporting data.

DEVELOPMENT WITH CUSTOMERS

PARTNERSHIPS

Benteler Distribution Limited has built up and is constantly extending its modern machinery for tube processing. We are constantly doing this in harmony with the needs of our customers for increased flexibility, rate of change, chasing costs and improving value.

We offer support to clients who need to address their production peaks, or carry out non-standard processes. We can assist if your company wishes to free up premises, by transferring both machinery and staff to Pipe & Tube; allowing a better utilisation of capacity, or even discuss completely new production lines.

In the end it's a matter of choosing between investing in new machinery or purchasing components. Benteler Distribution Limited are prepared to invest substantially to find a common solution.

SUPPLY SOLUTIONS

At Benteler Distribution we have examined and identified, 'Four typical requirements situations.' For the unique way your business operates in.

- The basic solution: You know what you want. We have it in stock. You order, and we deliver.
- The logistic solution: You know what you want. We make sure that you get it, and we deliver just in time.
- The technical solution: You know what you need. We propose what you should have. We make sure that you get it, and we deliver just in time.
- The innovative solution: You don't know what you need. We jointly arrive at a solution, we make sure that you get what you want.
- We will work with you to ensure you get the right solution.

COMMITMENT TO INDUSTRY

As the UK's leading tube specialist, we have genuine experience gained from the UK as well as our groups home markets, this is at your disposal as a customer of Benteler Distribution. We would welcome you to make active use of this in your company.

We want to join you in developing your competitiveness.
